Formal Request for assistance from British Government

Dear Rt. Hon. Greg Hands MP and Ms. Fell:

I hope this e-mail finds you well. I write further to my previous correspondence(s) seeking your support to help with pleading with the British Government to intervene and lobby the Biden/Harris administration on my behalf given the gross miscarriage of justice which I have suffered and continue to suffer with my wrongful prosecution and imprisonment.

I write to thank you for contacting the Foreign, Commonwealth & Development office/ministry on my behalf. As you requested I have sent via e-mail and postal services my consent for you to represent me and to share or refer my information with any Governmental departments/ministries in order to allow the British Government intervene and lobby on my behalf.

I would like to also respectfully request that you contact the Ministry of Justice and The Rt. Hon. Robert Buckland QC, Lord Chancellor and Secretary of State for Justice on my behalf to request that they/he write to the Attorney General of the United States, Attorney General Merrick Garland to formally request an investigation into why federal judges within the American justice

system willfully ignored the law and fabricated evidence to convict and imprison a British citizen particularly if Britain is to continue extraditing its citizens to the American justice system.

On July 27, 2021, I submitted 350 pages of demonstrable evidence (Motion and Appendix) at the United States Court of Appeals for the Second Circuit, at 20-4164(L), doc. no. 62, highlighting that U.S. Judge Lewis A. Kaplan willfully ignored the law to convict me and U.S. Judge Richard J. Sullivan fabricated evidence to convict and imprison me. To-date the U.S. prosecutors have failed or refused to challenge my submission nor have they provided any arguments or evidence to counter it. More significantly, the U.S. judges and Court have remained silent, while I continue to languish in prison.

My request is urgent while I remain unjustly imprisoned because of the resurging Covid-19 particularly the more virulent delta variant which is significantly more dangerous than the previous variant. This is extremely serious because I suffer from diabetes (requiring insulin twice daily) and hypertension, both medical vulnerabilities which places me at a significant risk of illness or death, as promulgated by the C.D.C., should I contract Covid-19 again. In December 2020, I contracted the earlier Covid-19 variant, alongside 114-out of 116 inmates at the housing unit at Allenwood Low, where I am currently incarcerated. I was later diagnosed with Covid pneumonia which lead to significant suffering and breathing problems while the Institution, Allenwood Low provided no therapeutics or treatment.

An investigation conducted at the instruction of the Attorney General will conclusively demonstrate that the U.S. federal judges willfully ignored the law and fabricated evidence to wrongly convict and imprison a British citizen. It will also aid in the intervention and lobbying efforts by the British Government to the Biden/Harris administration.

As a matter of courtesy, I am copying this correspondence to Ambassador Karen Pierce (U.K. Ambassador to the U.S.) and Madame Jacqueline Greenlaw (Vice Consul, British Consulate General, New York) given their ongoing involvement with me and my request to the British Government.

Please continue to correspond with me either via e-mail at rbrennerman1048@emailinterface.org or by writing to me at the above address.

I respectfully submit the above and plead for your continued support.

I look forward to hearing from you
